

**UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF INDIANA  
FORT WAYNE DIVISION**

**ANTHONY WEBSTER**, on behalf of himself  
and all others similarly situated,

Plaintiff,

v.

**BRADFORD-SCOTT DATA, LLC d/b/a  
SHARETEC**,

Defendant.

No.

**CLASS ACTION COMPLAINT**

**DEMAND FOR JURY TRIAL**

Anthony Webster (“Plaintiff”), through his attorneys, individually and on behalf of all others similarly situated, brings this Class Action Complaint against Defendant Bradford-Scott Data, LLC d/b/a Sharetec (“Bradford-Scott” or “Defendant”), and its present, former, or future direct and indirect parent companies, subsidiaries, affiliates, agents, and/or other related entities. Plaintiff alleges the following on information and belief—except as to his own actions, counsel’s investigations, and facts of public record.

**NATURE OF ACTION**

1. This class action arises from Defendant’s failure to protect highly sensitive data.
2. Defendant is a software provider for over 280 credit unions across the country.<sup>1</sup>
3. As such, Defendant stores a litany of highly sensitive personal identifiable information (“PII”) about its current and former customers (and/or the current and former customers of Defendant’s institutional clients). But Defendant lost control over that data when

---

<sup>1</sup> *Bradford-Scott Acquires Northern Data Systems Sharetec Business and Unites All of Sharetec*, SHARETEC (Aug. 3, 2022) <https://www.sharetec.com/wp-content/uploads/2023/05/PR-SharetecUnited.pdf>.

cybercriminals infiltrated its insufficiently protected computer systems in a data breach (the “Data Breach”).

4. It is unknown for precisely how long the cybercriminals had access to Defendant’s network before the breach was discovered. In other words, Defendant had no effective means to prevent, detect, stop, or mitigate breaches of its systems—thereby allowing cybercriminals unrestricted access to the PII of Defendant’s current and former customers (and/or the current and former customers of Defendant’s institutional clients).

5. On information and belief, cybercriminals were able to breach Defendant’s systems because Defendant failed to adequately train its employees on cybersecurity and failed to maintain reasonable security safeguards or protocols to protect the Class’s PII. In short, Defendant’s failures placed the Class’s PII in a vulnerable position—rendering them easy targets for cybercriminals.

6. Plaintiff is a Data Breach victim, having received a breach notice—attached as Exhibit A. He brings this class action on behalf of himself, and all others harmed by Defendant’s misconduct.

7. The exposure of one’s PII to cybercriminals is a bell that cannot be unrung. Before this data breach, Class Members’ private information was exactly that—private. Not anymore. Now, their private information is forever exposed and unsecure.

## **PARTIES**

8. Plaintiff, Anthony Webster, is a natural person and citizen of Wyoming. He resides in Laramie, Wyoming where he intends to remain.

9. Defendant, Bradford-Scott Data, LLC, is a Limited Liability Company incorporated in Delaware and with its principal place of business at 1001 Chestnut Hills Parkway, Fort Wayne, Indiana 46814.

## **JURISDICTION AND VENUE**

10. This Court has subject matter jurisdiction over this action under the Class Action Fairness Act, 28 U.S.C. § 1332(d)(2). The amount in controversy exceeds \$5 million, exclusive of interest and costs. Plaintiff and Defendant are citizens of different states. And there are over 100 putative Class members.

11. This Court has personal jurisdiction over Defendant because it is headquartered in Indiana, regularly conducts business in Indiana, and has sufficient minimum contacts in Indiana.

12. Venue is proper in this Court because Defendant's principal office is in this District, and because a substantial part of the events, acts, and omissions giving rise to Plaintiff's claims occurred in this District.

## **BACKGROUND**

### ***Defendant Collected and Stored the PII of Plaintiff and the Class***

13. Defendant Bradford-Scott Data, LLC is a technology and data service provider for over 280 credit unions across the country.<sup>2</sup>

14. In particular, Defendant Bradford-Scott Data, LLC is the majority owner and distributor of "Sharetec" (a software system for credit unions).<sup>3</sup>

15. As part of its business, Defendant receives and maintains the PII of thousands of its current and former customers (and/or the current and former customers of Defendant's institutional clients).

---

<sup>2</sup> *Id.*

<sup>3</sup> *Id.*

16. In collecting and maintaining the PII, Defendant agreed it would safeguard the data in accordance with its internal policies, state law, and federal law. After all, Plaintiff and Class members themselves took reasonable steps to secure their PII.

17. Under state and federal law, businesses like Defendant have duties to protect the PII—of Defendant’s current and former customers (and/or the current and former customers of Defendant’s institutional clients)—and to notify them about breaches.

18. Defendant recognizes these duties, declaring in its “Privacy Policy” that:

- a. “We use regular Malware Scanning.”<sup>4</sup>
- b. “Your personal information is contained behind secured networks and is only accessible by a limited number of persons who have special access rights to such systems, and are required to keep the information confidential.”<sup>5</sup>
- c. “In addition, all sensitive/credit information you supply is encrypted via Secure Socket Layer (SSL) technology.”<sup>6</sup>
- d. “We implement a variety of security measures when a user enters, submits, or accesses their information to maintain the safety of your personal information.”<sup>7</sup>
- e. “All transactions are processed through a gateway provider and are not stored or processed on our servers.”<sup>8</sup>

---

<sup>4</sup> *Privacy Policy*, SHARETEC (April 27, 2023) <https://www.sharetec.com/privacy-policy/>.

<sup>5</sup> *Id.*

<sup>6</sup> *Id.*

<sup>7</sup> *Id.*

<sup>8</sup> *Id.*

- f. “We do not sell, trade, or otherwise transfer to outside parties your Personally Identifiable Information unless we provide users with advance notice.”<sup>9</sup>

19. Likewise, Defendant’s recognizes on its blog that “[e]nsuring that member data is handled securely and complies with relevant data protection regulations will not only help keep member information safe but in turn will enhance member satisfaction.”<sup>10</sup>

20. Similarly, Defendant advertises that:

- a. “Sharetec’s Data-At-Rest Encryption is crucial to keeping member data safe.”<sup>11</sup>
- b. “Alan Collier, System Administrator for Sharetec System, comments, ‘Sharetec has implemented Data-At-Rest Encryption at both data centers with great success.’”<sup>12</sup>
- c. “As a standard benefit through Sharetec’s Service Center, Data-At-Rest Encryption provides credit union member’s comfort knowing their information is secure.”<sup>13</sup>
- d. “Matt Isgar, Regional Director for Sharetec System, comments, ‘Sharetec knows the importance of providing the most up-to-date technology to

<sup>12</sup> *Id.*

<sup>13</sup> *Id.*

credit unions in order to avoid any kind of threat to their member's data.

Providing Data-At-Rest Encryption to our customers will ensure their members are confident their information is safe within the credit union.”<sup>14</sup>

- e. “The old ways of safeguarding data are insufficient. It’s time to adopt encryption-at-rest technology on all servers where member data is being stored, rather than relying on firewalls.”<sup>15</sup>

21. And again, Defendant advertises that:

- a. “Bradford-Scott provides your team the confidence that the system is secure at all times, not just at a single point;”
- b. “[We] will monitor all incoming and outgoing activity so your credit union will know of a problem long before that problem has caused pain for your staff or your membership;” and
- c. “No longer can you just consider threats that come from outside your network, an innocent link in an email may open a door that no one knew was there just yesterday. Intrusion Testing from Bradford-Scott makes sure your network is safe all the time - from the inside out.”<sup>16</sup>

### ***Defendant's Data Breach***

---

<sup>14</sup> *Id.*

<sup>15</sup> *Id.*

<sup>16</sup> *Security & Fraud Prevention*, SHARETEC, <https://www.bradfordscott.com/security-fraud-prevention> [<https://web.archive.org/web/20220516123045/https://www.bradfordscott.com/security-fraud-prevention>].

22. From May 19, 2023, until May 28, 2023, Defendant was hacked.<sup>17</sup>

23. Worryingly, Defendant already admitted that “certain files were likely *copied* from our network.”<sup>18</sup>

24. To make matters worse, Defendant was unable to detect its own Data Breach until July 2, 2023—a full *44 days* after the Data Breach began.<sup>19</sup> Thus, cybercriminals had ample time to peruse Plaintiff’s and Class Members’ PII (and then copy whatever data they could exploit for profit).

25. Because of Defendant’s Data Breach, at least the following types of PII were compromised:

- a. names;
- b. Social Security numbers;
- c. dates of birth;
- d. financial account information;
- e. credit card numbers; and
- f. debit card numbers.<sup>20</sup>

<sup>17</sup> *Data Breach Notifications*, MAINE ATTY GEN, <https://apps.web.maine.gov/online/aeviewer/ME/40/a962e210-669d-4c3a-93ac-f3a0aff6ab43.shtml> (last visited March 12, 2024).

<sup>18</sup> *Id.*

<sup>19</sup> *Id.*

<sup>20</sup> Ex. A; *Data Breach Notification Report*, MASS.GOV, <https://www.mass.gov/doc/data-breach-report-2024/download> (last visited March 12, 2024).

26. In total, Defendant injured at least 41,968 persons—via the exposure of their PII—in the Data Breach.<sup>21</sup> Upon information and belief, these 41,968 persons include its current and former customers (and/or the current and former customers of Defendant’s institutional clients).

27. Still, the precise scope of the Data Breach is unclear thus far. After all, it appears that while Defendant Bradford-Scott was hacked, the exposed PII originated from numerous credit unions.<sup>22</sup>

28. For example, disclosures to the Maine Attorney General indicate that “Wellness Federal Credit Union . . . owns the data at issue.”<sup>23</sup>

29. Meanwhile, Plaintiff Anthony Webster’s breach notice indicated that Defendant exposed PII that originated from StagePoint Federal Credit Union.<sup>24</sup>

30. Thus, upon information and belief, the Data Breach exposed the PII originating with various credit unions that Defendant has not yet disclosed.

31. To make matters worse, Defendant delayed its notification of Plaintiff and Class Members. After all, by December 10, 2023, Defendant had “determined after the detailed data review was complete . . . [whose] information was present in the potentially affected files.”<sup>25</sup>

---

<sup>21</sup> *Data Breach Notifications*, MAINE ATTY GEN, <https://apps.web.maine.gov/online/aeviewer/ME/40/a962e210-669d-4c3a-93ac-f3a0aff6ab43.shtml> (last visited March 12, 2024).

<sup>22</sup> *Id.*

<sup>23</sup> *Id.*

<sup>24</sup> *See* Ex. A.

<sup>25</sup> *Data Breach Notifications*, MAINE ATTY GEN, <https://apps.web.maine.gov/online/aeviewer/ME/40/a962e210-669d-4c3a-93ac-f3a0aff6ab43.shtml> (last visited March 12, 2024).

32. But inexplicably, Defendant waited until February 13, 2024, to begin notifying the exposed Class Members.<sup>26</sup> And Defendant waited until March 8, 2024, before notifying other exposed Class Members.<sup>27</sup>

33. Thus, Defendant delayed its notifications by 65 days—at a *minimum*—and up to 89 days or more.<sup>28</sup>

34. Via that delay, Defendant kept the Class in the dark—thereby depriving the Class of the opportunity to try and mitigate their injuries in a timely manner.

35. And when Defendant did notify Plaintiff and the Class of the Data Breach, Defendant acknowledged that the Data Breach created a present, continuing, and significant risk of suffering identity theft, warning Plaintiff and the Class:

- a. “remain vigilant against incidents of identity theft and fraud by reviewing your accounts and monitoring your free credit reports for suspicious activity and to detect errors over the next 12 to 24 months;” and
- b. “educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General.”<sup>29</sup>

36. Defendant failed its duties when its inadequate security practices caused the Data Breach. In other words, Defendant’s negligence is evidenced by its failure to prevent the Data

---

<sup>26</sup> *Id.*

<sup>27</sup> *Id.*

<sup>28</sup> *Id.*

<sup>29</sup> *Id.*

Breach and stop cybercriminals from accessing the PII. And thus, Defendant caused widespread injury and monetary damages.

37. Since the breach, Defendant has “implemented multiple additional security measures and safeguards to further enhance our existing policies and processes.”<sup>30</sup> But this is too little too late. Simply put, these measures—which Defendant now recognizes as necessary—should have been implemented *before* the Data Breach.

38. On information and belief, Defendant failed to adequately train its employees on reasonable cybersecurity protocols or implement reasonable security measures.

39. Further, the Notice of Data Breach shows that Defendant cannot—or will not—determine the full scope of the Data Breach, as Defendant has been unable to determine precisely what information was stolen and when.

40. Defendant has done little to remedy its Data Breach. True, Defendant has offered some victims credit monitoring and identity related services. But upon information and belief, such services are wholly insufficient to compensate Plaintiff and Class members for the injuries that Defendant inflicted upon them.

41. Because of Defendant’s Data Breach, the sensitive PII of Plaintiff and Class members was placed into the hands of cybercriminals—inflicting numerous injuries and significant damages upon Plaintiff and Class members.

42. Upon information and belief, the cybercriminals in question are particularly sophisticated. After all, the cybercriminals: (1) defeated the relevant data security systems, (2)

---

<sup>30</sup> *Id.*

gained actual access to sensitive data for 9 days, (3) went undetected for 44 days, and then (4) “likely copied” sensitive data.<sup>31</sup>

43. And as the Harvard Business Review notes, such “[c]ybercriminals frequently use the Dark Web—a hub of criminal and illicit activity—to sell data from companies that they have gained unauthorized access to through credential stuffing attacks, phishing attacks, [or] hacking.”<sup>32</sup>

44. Thus, on information and belief, Plaintiff’s and the Class’s stolen PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

***Plaintiff’s Experiences and Injuries***

45. Plaintiff Anthony Webster is a former customer of StagePoint Federal Credit Union (“StagePoint”).

46. Upon information and belief, StagePoint contracted with Defendant to obtain products and/or services. Thus, Defendant obtained and maintained Plaintiff’s PII.

47. As a result, Plaintiff was injured by Defendant’s Data Breach.

48. As a condition of receiving products and/or services from StagePoint, Plaintiff disclosed his PII which was then provided to Defendant. Thereafter, Defendant used that PII to facilitate its provision of products and/or services.

49. Plaintiff (or his third-party agent) provided his PII to Defendant and trusted the company would use reasonable measures to protect it according to Defendant’s internal policies, as well as state and federal law. Defendant obtained and continues to maintain Plaintiff’s PII and

---

<sup>31</sup> *Id.*

<sup>32</sup> Brenda R. Sharton, *Your Company’s Data Is for Sale on the Dark Web. Should You Buy It Back?*, HARVARD BUS. REV. (Jan. 4, 2023) <https://hbr.org/2023/01/your-companys-data-is-for-sale-on-the-dark-web-should-you-buy-it-back>.

has a continuing legal duty and obligation to protect that PII from unauthorized access and disclosure.

50. Plaintiff reasonably understood that a portion of the funds paid to Defendant (by himself or via his third-party agent) would be used to pay for adequate cybersecurity and protection of PII.

51. Plaintiff received a Notice of Data Breach dated February 27, 2024. But as explained *supra*, Defendant had already ascertained which individuals were exposed by December 10, 2023.

52. Thus, Defendant inexplicably delayed notifying Plaintiff for a full *79 days*. Such a delay was unreasonable given the severity of the Data Breach.

53. Through its Data Breach, Defendant compromised Plaintiff's:

- a. name;
- b. date of birth; and
- c. Social Security number.

54. Plaintiff has spent—and will continue to spend—significant time and effort monitoring his accounts to protect himself from identity theft. After all, Defendant directed Plaintiff to take those steps in its breach notice.

55. Plaintiff fears for his personal financial security and worries about what information was exposed in the Data Breach.

56. Because of Defendant's Data Breach, Plaintiff has suffered—and will continue to suffer from—anxiety, sleep disruption, stress, fear, and frustration. Such injuries go far beyond allegations of mere worry or inconvenience. Rather, Plaintiff's injuries are precisely the type of injuries that the law contemplates and addresses.

57. Plaintiff suffered actual injury from the exposure and theft of his PII—which violates his rights to privacy.

58. Plaintiff suffered actual injury in the form of damages to and diminution in the value of his PII. After all, PII is a form of intangible property—property that Defendant was required to adequately protect.

59. Plaintiff suffered imminent and impending injury arising from the substantially increased risk of fraud, misuse, and identity theft—all because Defendant’s Data Breach placed Plaintiff’s PII right in the hands of criminals.

60. Because of the Data Breach, Plaintiff anticipates spending considerable amounts of time and money to try and mitigate his injuries.

61. Today, Plaintiff has a continuing interest in ensuring that his PII—which, upon information and belief, remains backed up in Defendant’s possession—is protected and safeguarded from additional breaches.

***Plaintiff and the Proposed Class Face Significant Risk of Continued Identity Theft***

62. Because of Defendant’s failure to prevent the Data Breach, Plaintiff and Class members suffered—and will continue to suffer—damages. These damages include, *inter alia*, monetary losses, lost time, anxiety, and emotional distress. Also, they suffered or are at an increased risk of suffering:

- a. loss of the opportunity to control how their PII is used;
- b. diminution in value of their PII;
- c. compromise and continuing publication of their PII;
- d. out-of-pocket costs from trying to prevent, detect, and recovery from identity theft and fraud;

- e. lost opportunity costs and wages from spending time trying to mitigate the fallout of the Data Breach by, *inter alia*, preventing, detecting, contesting, and recovering from identify theft and fraud;
- f. delay in receipt of tax refund monies;
- g. unauthorized use of their stolen PII; and
- h. continued risk to their PII—which remains in Defendant’s possession—and is thus as risk for futures breaches so long as Defendant fails to take appropriate measures to protect the PII.

63. Stolen PII is one of the most valuable commodities on the criminal information black market. According to Experian, a credit-monitoring service, stolen PII can be worth up to \$1,000.00 depending on the type of information obtained.

64. The value of Plaintiff and Class’s PII on the black market is considerable. Stolen PII trades on the black market for years. And criminals frequently post and sell stolen information openly and directly on the “Dark Web”—further exposing the information.

65. It can take victims years to discover such identity theft and fraud. This gives criminals plenty of time to sell the PII far and wide.

66. One way that criminals profit from stolen PII is by creating comprehensive dossiers on individuals called “Fullz” packages. These dossiers are both shockingly accurate and comprehensive. Criminals create them by cross-referencing and combining two sources of data—first the stolen PII, and second, unregulated data found elsewhere on the internet (like phone numbers, emails, addresses, etc.).

67. The development of “Fullz” packages means that the PII exposed in the Data Breach can easily be linked to data of Plaintiff and the Class that is available on the internet.

68. In other words, even if certain information such as emails, phone numbers, or credit card numbers may not be included in the PII stolen by the cyber-criminals in the Data Breach, criminals can easily create a Fullz package and sell it at a higher price to unscrupulous operators and criminals (such as illegal and scam telemarketers) over and over. That is exactly what is happening to Plaintiff and Class members, and it is reasonable for any trier of fact, including this Court or a jury, to find that Plaintiff and other Class members' stolen PII is being misused, and that such misuse is fairly traceable to the Data Breach.

69. Defendant disclosed the PII of Plaintiff and Class members for criminals to use in the conduct of criminal activity. Specifically, Defendant opened up, disclosed, and exposed the PII of Plaintiff and Class members to people engaged in disruptive and unlawful business practices and tactics, including online account hacking, unauthorized use of financial accounts, and fraudulent attempts to open unauthorized financial accounts (i.e., identity fraud), all using the stolen PII.

70. Defendant's failure to promptly and properly notify Plaintiff and Class members of the Data Breach exacerbated Plaintiff and Class members' injury by depriving them of the earliest ability to take appropriate measures to protect their PII and take other necessary steps to mitigate the harm caused by the Data Breach.

***Defendant Knew—Or Should Have Known—of the Risk of a Data Breach***

71. Defendant's data security obligations were particularly important given the substantial increase in cyberattacks and/or data breaches in recent years.

72. In 2021, a record 1,862 data breaches occurred, exposing approximately

293,927,708 sensitive records—a 68% increase from 2020.<sup>33</sup>

73. Indeed, cyberattacks have become so notorious that the Federal Bureau of Investigation (“FBI”) and U.S. Secret Service issue warnings to potential targets, so they are aware of, and prepared for, a potential attack. As one report explained, “[e]ntities like smaller municipalities and hospitals are attractive to ransomware criminals . . . because they often have lesser IT defenses and a high incentive to regain access to their data quickly.”<sup>34</sup>

74. Therefore, the increase in such attacks, and attendant risk of future attacks, was widely known to the public and to anyone in Defendant’s industry, including Defendant.

***Defendant Failed to Follow FTC Guidelines***

75. According to the Federal Trade Commission (“FTC”), the need for data security should be factored into all business decision-making. Thus, the FTC issued numerous guidelines identifying best data security practices that businesses—like Defendant—should use to protect against unlawful data exposure.

76. In 2016, the FTC updated its publication, *Protecting Personal Information: A Guide for Business*. There, the FTC set guidelines for what data security principles and practices businesses must use.<sup>35</sup> The FTC declared that, *inter alia*, businesses must:

- a. protect the personal customer information that they keep;
- b. properly dispose of personal information that is no longer needed;

---

<sup>33</sup> See 2021 Data Breach Annual Report, IDENTITY THEFT RESOURCE CENTER (Jan. 2022) <https://notified.idtheftcenter.org/s/>.

<sup>34</sup> Ben Kochman, *FBI, Secret Service Warn of Targeted Ransomware*, LAW360 (Nov. 18, 2019), <https://www.law360.com/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware>.

<sup>35</sup> *Protecting Personal Information: A Guide for Business*, FEDERAL TRADE COMMISSION (Oct. 2016) [https://www.ftc.gov/system/files/documents/plain-language/pdf-0136\\_proteting-personal-information.pdf](https://www.ftc.gov/system/files/documents/plain-language/pdf-0136_proteting-personal-information.pdf).

- c. encrypt information stored on computer networks;
- d. understand their network's vulnerabilities; and
- e. implement policies to correct security problems.

77. The guidelines also recommend that businesses watch for the transmission of large amounts of data out of the system—and then have a response plan ready for such a breach.

78. Furthermore, the FTC explains that companies must:

- a. not maintain information longer than is needed to authorize a transaction;
- b. limit access to sensitive data;
- c. require complex passwords to be used on networks;
- d. use industry-tested methods for security;
- e. monitor for suspicious activity on the network; and
- f. verify that third-party service providers use reasonable security measures.

79. The FTC brings enforcement actions against businesses for failing to protect customer data adequately and reasonably. Thus, the FTC treats the failure—to use reasonable and appropriate measures to protect against unauthorized access to confidential consumer data—as an unfair act or practice prohibited by Section 5 of the Federal Trade Commission Act (“FTCA”), 15 U.S.C. § 45. Orders resulting from these actions further clarify the measures businesses must take to meet their data security obligations.

80. In short, Defendant's failure to use reasonable and appropriate measures to protect against unauthorized access to the PII—of Defendant's current and former customers (and/or the current and former customers of Defendant's institutional clients)—constitutes an unfair act or practice prohibited by Section 5 of the FTCA, 15 U.S.C. § 45.

***Defendant Failed to Follow Industry Standards***

81. Several best practices have been identified that—at a *minimum*—should be implemented by businesses like Defendant. These industry standards include: educating all employees; strong passwords; multi-layer security, including firewalls, anti-virus, and anti-malware software; encryption (making data unreadable without a key); multi-factor authentication; backup data; and limiting which employees can access sensitive data.

82. Other industry standard best practices include: installing appropriate malware detection software; monitoring and limiting the network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and routers; monitoring and protection of physical security systems; protection against any possible communication system; and training staff regarding critical points.

83. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

84. These frameworks are applicable and accepted industry standards. And by failing to comply with these accepted standards, Defendant opened the door to the criminals—thereby causing the Data Breach.

### **CLASS ACTION ALLEGATIONS**

85. Plaintiff brings this class action under Fed. R. Civ. P. 23(a), 23(b)(2), and 23(b)(3), individually and on behalf of all members of the following class:

All individuals residing in the United States whose PII was compromised in the Data Breach discovered by Bradford-Scott in

July 2023, including all those individuals who received notice of the breach.

86. Excluded from the Class are Defendant, its agents, affiliates, parents, subsidiaries, any entity in which Defendant has a controlling interest, any Defendant officer or director, any successor or assign, and any Judge who adjudicates this case, including their staff and immediate family.

87. Plaintiff reserves the right to amend the class definition.

88. Certification of Plaintiff's claims for class-wide treatment is appropriate because Plaintiff can prove the elements of his claims on class-wide bases using the same evidence as would be used to prove those elements in individual actions asserting the same claims.

89. Ascertainability. All members of the proposed Class are readily ascertainable from information in Defendant's custody and control. After all, Defendant already identified some individuals and sent them data breach notices.

90. Numerosity. The Class members are so numerous that joinder of all Class members is impracticable. Upon information and belief, the proposed Class includes at least 41,968 members.

91. Typicality. Plaintiff's claims are typical of Class members' claims as each arises from the same Data Breach, the same alleged violations by Defendant, and the same unreasonable manner of notifying individuals about the Data Breach.

92. Adequacy. Plaintiff will fairly and adequately protect the proposed Class's common interests. His interests do not conflict with Class members' interests. And Plaintiff has retained counsel—including lead counsel—that is experienced in complex class action litigation and data privacy to prosecute this action on the Class's behalf.

93. Commonality and Predominance. Plaintiff's and the Class's claims raise predominantly common fact and legal questions—which predominate over any questions affecting individual Class members—for which a class wide proceeding can answer for all Class members.

In fact, a class wide proceeding is necessary to answer the following questions:

- a. if Defendant had a duty to use reasonable care in safeguarding Plaintiff's and the Class's PII;
- b. if Defendant failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the information compromised in the Data Breach;
- c. if Defendant were negligent in maintaining, protecting, and securing PII;
- d. if Defendant breached contract promises to safeguard Plaintiff and the Class's PII;
- e. if Defendant took reasonable measures to determine the extent of the Data Breach after discovering it;
- f. if Defendant's Breach Notice was reasonable;
- g. if the Data Breach caused Plaintiff and the Class injuries;
- h. what the proper damages measure is; and
- i. if Plaintiff and the Class are entitled to damages, treble damages, and or injunctive relief.

94. Superiority. A class action will provide substantial benefits and is superior to all other available means for the fair and efficient adjudication of this controversy. The damages or other financial detriment suffered by individual Class members are relatively small compared to the burden and expense that individual litigation against Defendant would require. Thus, it would

be practically impossible for Class members, on an individual basis, to obtain effective redress for their injuries. Not only would individualized litigation increase the delay and expense to all parties and the courts, but individualized litigation would also create the danger of inconsistent or contradictory judgments arising from the same set of facts. By contrast, the class action device provides the benefits of adjudication of these issues in a single proceeding, ensures economies of scale, provides comprehensive supervision by a single court, and presents no unusual management difficulties.

**FIRST CAUSE OF ACTION**  
**Negligence**  
**(On Behalf of Plaintiff and the Class)**

95. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

96. Plaintiff and the Class (or their third-party agents) entrusted their PII to Defendant on the premise and with the understanding that Defendant would safeguard their PII, use their PII for business purposes only, and/or not disclose their PII to unauthorized third parties.

97. Defendant owed a duty of care to Plaintiff and Class members because it was foreseeable that Defendant's failure—to use adequate data security in accordance with industry standards for data security—would compromise their PII in a data breach. And here, that foreseeable danger came to pass.

98. Defendant has full knowledge of the sensitivity of the PII and the types of harm that Plaintiff and the Class could and would suffer if their PII was wrongfully disclosed.

99. Defendant owed these duties to Plaintiff and Class members because they are members of a well-defined, foreseeable, and probable class of individuals whom Defendant knew or should have known would suffer injury-in-fact from Defendant's inadequate security practices. After all, Defendant actively sought and obtained Plaintiff and Class members' PII.

100. Defendant owed—to Plaintiff and Class members—at least the following duties to:

- a. exercise reasonable care in handling and using the PII in its care and custody;
- b. implement industry-standard security procedures sufficient to reasonably protect the information from a data breach, theft, and unauthorized;
- c. promptly detect attempts at unauthorized access;
- d. notify Plaintiff and Class members within a reasonable timeframe of any breach to the security of their PII.

101. Thus, Defendant owed a duty to timely and accurately disclose to Plaintiff and Class members the scope, nature, and occurrence of the Data Breach. After all, this duty is required and necessary for Plaintiff and Class members to take appropriate measures to protect their PII, to be vigilant in the face of an increased risk of harm, and to take other necessary steps to mitigate the harm caused by the Data Breach.

102. Defendant also had a duty to exercise appropriate clearinghouse practices to remove PII it was no longer required to retain under applicable regulations.

103. Defendant knew or reasonably should have known that the failure to exercise due care in the collecting, storing, and using of the PII of Plaintiff and the Class involved an unreasonable risk of harm to Plaintiff and the Class, even if the harm occurred through the criminal acts of a third party.

104. Defendant's duty to use reasonable security measures arose because of the special relationship that existed between Defendant and Plaintiff and the Class. That special relationship arose because Plaintiff and the Class (or their third-party agents) entrusted Defendant with their confidential PII, a necessary part of obtaining services from Defendant.

105. The risk that unauthorized persons would attempt to gain access to the PII and misuse it was foreseeable. Given that Defendant hold vast amounts of PII, it was inevitable that unauthorized individuals would attempt to access Defendant's databases containing the PII — whether by malware or otherwise.

106. PII is highly valuable, and Defendant knew, or should have known, the risk in obtaining, using, handling, emailing, and storing the PII of Plaintiff and Class members' and the importance of exercising reasonable care in handling it.

107. Defendant improperly and inadequately safeguarded the PII of Plaintiff and the Class in deviation of standard industry rules, regulations, and practices at the time of the Data Breach.

108. Defendant breached these duties as evidenced by the Data Breach.

109. Defendant acted with wanton and reckless disregard for the security and confidentiality of Plaintiff's and Class members' PII by:

- a. disclosing and providing access to this information to third parties and
- b. failing to properly supervise both the way the PII was stored, used, and exchanged, and those in its employ who were responsible for making that happen.

110. Defendant breached its duties by failing to exercise reasonable care in supervising its agents, contractors, vendors, and suppliers, and in handling and securing the personal information and PII of Plaintiff and Class members which actually and proximately caused the Data Breach and Plaintiff and Class members' injury.

111. Defendant further breached its duties by failing to provide reasonably timely notice of the Data Breach to Plaintiff and Class members, which actually and proximately caused and exacerbated the harm from the Data Breach and Plaintiff and Class members' injuries-in-fact.

112. Defendant has admitted that the PII of Plaintiff and the Class was wrongfully lost and disclosed to unauthorized third persons because of the Data Breach.

113. As a direct and traceable result of Defendant's negligence and/or negligent supervision, Plaintiff and Class members have suffered or will suffer damages, including monetary damages, increased risk of future harm, embarrassment, humiliation, frustration, and emotional distress.

114. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

115. Defendant's breach of its common-law duties to exercise reasonable care and its failures and negligence actually and proximately caused Plaintiff and Class members actual, tangible, injury-in-fact and damages, including, without limitation, the theft of their PII by criminals, improper disclosure of their PII, lost benefit of their bargain, lost value of their PII, and lost time and money incurred to mitigate and remediate the effects of the Data Breach that resulted from and were caused by Defendant's negligence, which injury-in-fact and damages are ongoing, imminent, immediate, and which they continue to face.

**SECOND CAUSE OF ACTION**  
**Negligence *per se***  
**(On Behalf of Plaintiff and the Class)**

116. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

117. Under the FTC Act, 15 U.S.C. § 45, Defendant had a duty to use fair and adequate computer systems and data security practices to safeguard Plaintiff's and Class members' PII.

118. Section 5 of the FTC Act prohibits “unfair . . . practices in or affecting commerce,” including, as interpreted and enforced by the FTC, the unfair act or practice by businesses, such as Defendant, of failing to use reasonable measures to protect the PII entrusted to it. The FTC publications and orders promulgated pursuant to the FTC Act also form part of the basis of Defendant’s duty to protect Plaintiff and the Class members’ sensitive PII.

119. Defendant breached its respective duties to Plaintiff and Class members under the FTC Act by failing to provide fair, reasonable, or adequate computer systems and data security practices to safeguard PII.

120. Defendant violated its duty under Section 5 of the FTC Act by failing to use reasonable measures to protect PII and not complying with applicable industry standards as described in detail herein. Defendant’s conduct was particularly unreasonable given the nature and amount of PII Defendant had collected and stored and the foreseeable consequences of a data breach, including, specifically, the immense damages that would result to individuals in the event of a breach, which ultimately came to pass.

121. The harm that has occurred is the type of harm the FTC Act is intended to guard against. Indeed, the FTC has pursued numerous enforcement actions against businesses that, because of their failure to employ reasonable data security measures and avoid unfair and deceptive practices, caused the same harm as that suffered by Plaintiff and members of the Class.

122. But for Defendant’s wrongful and negligent breach of its duties owed, Plaintiff and Class members would not have been injured.

123. The injury and harm suffered by Plaintiff and Class members was the reasonably foreseeable result of Defendant’s breach of their duties. Defendant knew or should have known

that Defendant was failing to meet its duties and that its breach would cause Plaintiff and members of the Class to suffer the foreseeable harms associated with the exposure of their PII.

124. Defendant's various violations and its failure to comply with applicable laws and regulations constitutes negligence *per se*.

125. As a direct and proximate result of Defendant's negligence *per se*, Plaintiff and Class members have suffered and will continue to suffer numerous injuries (as detailed *supra*).

**THIRD CAUSE OF ACTION**  
**Breach of Implied Contract**  
**(On Behalf of Plaintiff and the Class)**

126. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

127. Plaintiff and Class members either directly contracted with Defendant or Plaintiff and Class members were the third-party beneficiaries of contracts with Defendant.

128. Plaintiff and Class members (or their third-party agents) were required to provide their PII to Defendant as a condition of receiving products and/or services provided by Defendant. Plaintiff and Class members (or their third-party agents) provided their PII to Defendant or its third-party agents in exchange for Defendant's products and/or services.

129. The contracts entered into by Plaintiff's and Class Members' agents (for example, their credit unions), were made for the direct benefit of Plaintiff and the Class. Specifically, Plaintiff's and Class members' third-party agents entered into contracts with Defendant to provide software products and related services for Plaintiff and Class members.

130. Plaintiff and Class members (or their third-party agents) reasonably understood that a portion of the funds they paid Defendant would be used to pay for adequate cybersecurity measures.

131. Plaintiff and Class members (or their third-party agents) reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

132. Plaintiff and the Class members (or their third-party agents) accepted Defendant's offers by disclosing their PII to Defendant or its third-party agents in exchange for products and/or services.

133. In turn, and through internal policies, Defendant agreed to protect and not disclose the PII to unauthorized persons.

134. In its Privacy Policy, Defendant represented that they had a legal duty to protect Plaintiff's and Class Member's PII.

135. Implicit in the parties' agreement was that Defendant would provide Plaintiff and Class members (or their third-party agents) with prompt and adequate notice of all unauthorized access and/or theft of their PII.

136. After all, Plaintiff and Class members (or their third-party agents) would not have entrusted their PII to Defendant (or their third-party agents) in the absence of such an agreement with Defendant.

137. Plaintiff and the Class (or their third-party agents) fully performed their obligations under the implied contracts with Defendant.

138. The covenant of good faith and fair dealing is an element of every contract. Thus, parties must act with honesty in fact in the conduct or transactions concerned. Good faith and fair dealing, in connection with executing contracts and discharging performance and other duties according to their terms, means preserving the spirit—and not merely the letter—of the bargain.

In short, the parties to a contract are mutually obligated to comply with the substance of their contract in addition to its form.

139. Subterfuge and evasion violate the duty of good faith in performance even when an actor believes their conduct to be justified. Bad faith may be overt or consist of inaction. And fair dealing may require more than honesty.

140. Defendant materially breached the contracts it entered with Plaintiff and Class members (or their third-party agents) by:

- a. failing to safeguard their information;
- b. failing to notify them promptly of the intrusion into its computer systems that compromised such information.
- c. failing to comply with industry standards;
- d. failing to comply with the legal obligations necessarily incorporated into the agreements; and
- e. failing to ensure the confidentiality and integrity of the electronic PII that Defendant created, received, maintained, and transmitted.

141. In these and other ways, Defendant violated its duty of good faith and fair dealing.

142. Defendant's material breaches were the direct and proximate cause of Plaintiff's and Class members' injuries (as detailed *supra*).

143. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

144. Plaintiff and Class members (or their third-party agents) performed as required under the relevant agreements, or such performance was waived by Defendant's conduct.

**FOURTH CAUSE OF ACTION**  
**Invasion of Privacy**

**(On Behalf of Plaintiff and the Class)**

145. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

146. Plaintiff and the Class had a legitimate expectation of privacy regarding their highly sensitive and confidential PII and were accordingly entitled to the protection of this information against disclosure to unauthorized third parties.

147. Defendant owed a duty to its current and former customers (and/or the current and former customers of Defendant's institutional clients), including Plaintiff and the Class, to keep this information confidential.

148. The unauthorized acquisition (i.e., theft) by a third party of Plaintiff and Class members' PII is highly offensive to a reasonable person.

149. The intrusion was into a place or thing which was private and entitled to be private. Plaintiff and the Class (or their third-party agents) disclosed their sensitive and confidential information to Defendant, but did so privately, with the intention that their information would be kept confidential and protected from unauthorized disclosure. Plaintiff and the Class were reasonable in their belief that such information would be kept private and would not be disclosed without their authorization.

150. The Data Breach constitutes an intentional interference with Plaintiff's and the Class's interest in solitude or seclusion, either as to their person or as to their private affairs or concerns, of a kind that would be highly offensive to a reasonable person.

151. Defendant acted with a knowing state of mind when it permitted the Data Breach because it knew its information security practices were inadequate.

152. Defendant acted with a knowing state of mind when it failed to notify Plaintiff and the Class in a timely fashion about the Data Breach, thereby materially impairing their mitigation efforts.

153. Acting with knowledge, Defendant had notice and knew that its inadequate cybersecurity practices would cause injury to Plaintiff and the Class.

154. As a proximate result of Defendant's acts and omissions, the private and sensitive PII of Plaintiff and the Class were stolen by a third party and is now available for disclosure and redisclosure without authorization, causing Plaintiff and the Class to suffer damages (as detailed *supra*).

155. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the Dark Web.

156. Unless and until enjoined and restrained by order of this Court, Defendant's wrongful conduct will continue to cause great and irreparable injury to Plaintiff and the Class since their PII are still maintained by Defendant with their inadequate cybersecurity system and policies.

157. Plaintiff and the Class have no adequate remedy at law for the injuries relating to Defendant's continued possession of their sensitive and confidential records. A judgment for monetary damages will not end Defendant's inability to safeguard the PII of Plaintiff and the Class.

158. In addition to injunctive relief, Plaintiff, on behalf of himself and the other Class members, also seeks compensatory damages for Defendant's invasion of privacy, which includes the value of the privacy interest invaded by Defendant, the costs of future monitoring of their credit history for identity theft and fraud, plus prejudgment interest and costs.

**FIFTH CAUSE OF ACTION**  
**Unjust Enrichment**  
**(On Behalf of Plaintiff and the Class)**

159. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

160. This claim is pleaded in the alternative to the breach of implied contract claim.

161. Plaintiff and Class members (or their third-party agents) conferred a benefit upon Defendant. After all, Defendant benefitted from using their PII (and/or payment) to provide products and/or services.

162. Defendant appreciated or had knowledge of the benefits it received from Plaintiff and Class members (or their third-party agents).

163. Plaintiff and Class members (or their third-party agents) reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

164. Defendant enriched itself by saving the costs they reasonably should have expended on data security measures to secure Plaintiff's and Class members' PII.

165. Instead of providing a reasonable level of security, or retention policies, that would have prevented the Data Breach, Defendant instead calculated to avoid its data security obligations at the expense of Plaintiff and Class members by utilizing cheaper, ineffective security measures. Plaintiff and Class members, on the other hand, suffered as a direct and proximate result of Defendant's failure to provide the requisite security.

166. Under principles of equity and good conscience, Defendant should not be permitted to retain the full value of the PII (and/or payment) of Plaintiff and Class Members (and/or their third-party agents) because Defendant failed to adequately protect their PII.

167. Plaintiff and Class members have no adequate remedy at law.

168. Defendant should be compelled to disgorge into a common fund—for the benefit of Plaintiff and Class members—all unlawful or inequitable proceeds that it received because of its misconduct.

**SIXTH CAUSE OF ACTION**  
**Bailment**  
**(On Behalf of Plaintiff and the Class)**

169. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

170. Plaintiff and Class Members (and/or their third-party agents) and Defendant contemplated a mutual benefit bailment when Plaintiff and Class Members (and/or their third-party agents) delivered their PII (a form of personal property) to Defendant solely for the purpose of obtaining Defendant's software products and/or related services.

171. Plaintiff and the Class (and/or their third-party agents) entrusted their PII to Defendant for a specific purpose—to obtain Defendant's software products and/or related services—with an implied contract that the trust was to be faithfully executed, and the PII was to be accounted for when the special purpose was accomplished.

172. Defendant accepted the Plaintiff's and Class Members' PII for the specific purpose of providing its software products and/or related services.

173. As such, the PII—of Plaintiff and Class Members—was delivered into the exclusive possession of Defendant. After all, once the PII passed over into Defendant's exclusive possession, Plaintiff and Class Members could not manipulate the PII stored on Defendant's data systems.

174. Defendant was duty bound under the law to exercise ordinary care and diligence in safeguarding the PII of Plaintiff and Class Members.

175. The PII of Plaintiff and Class Members was used (i) for a different purpose than Plaintiff and Class intended, (ii) for a longer time period, and/or (iii) in a different manner or place than Plaintiff and the Class intended.

176. Under Indiana law regarding bailment, Defendant's misconduct can be conceptualized as (i) tortious and/or (ii) a breach of contractual duties.

177. Thus, Plaintiff and the Class Members incurred damages as detailed *supra*.

### **PRAYER FOR RELIEF**

Plaintiff and Class members respectfully request judgment against Defendant and that the Court enter an order:

- A. Certifying this case as a class action on behalf of Plaintiff and the proposed Class, appointing Plaintiff as class representative, and appointing his counsel to represent the Class;
- B. Awarding declaratory and other equitable relief as necessary to protect the interests of Plaintiff and the Class;
- C. Awarding injunctive relief as necessary to protect the interests of Plaintiff and the Class;
- D. Awarding Plaintiff and the Class damages including applicable compensatory, exemplary, punitive damages, and statutory damages, as allowed by law;
- E. Awarding restitution and damages to Plaintiff and the Class in an amount to be determined at trial;
- F. Awarding attorneys' fees and costs, as allowed by law;
- G. Awarding prejudgment and post-judgment interest, as provided by law;

- H. Granting Plaintiff and the Class leave to amend this complaint to conform to the evidence produced at trial; and
- I. Granting other relief that this Court finds appropriate.

### **DEMAND FOR JURY TRIAL**

Plaintiff demands a jury trial for all claims so triable.

Date: March 14, 2024

Respectfully submitted,
